

# PRESSURE ROLLER

An ergonomic 40 mm pressure roller

PRODUCT DATA SHEET

## Product description

The Pressure Roller is the most commonly used roller for evenly pressing down joints, seams and pieces of EPDM roofing. It is also widely used for pressing down tape and pond liners. The roller has double bearings and an ergonomic handle, making it comfortable to use when smoothing out several meters.

## Application

The Pressure Roller can be used to press down joints, seams, pieces of EPDM roofing, tape and pond liners.

## Advantages

- › Most commonly used roller
- › Has double bearings
- › Ergonomic handle

Material	Width	Length	Weight
Silicone	40 mm	180 mm	207 g
