

# GARDEN CLEAN BIO BASED

Universal and organic cleaning product

PRODUCT DATA SHEET

## Product description

Garden Clean Bio Based is a universal cleaning product based on bio-based raw materials for intensively cleaning roofs and walls. The combination of specific active ingredients ensures that all dirt is loosened and broken down. There is no need to scrub or use a pressure washer. Results are noticeable after only a few days. Maximum results are achieved after a few weeks, depending on the amount and type of dirt.

## Application

Flat and pitched roofs: slates, tiles, shingles, corrugated sheets, thatching, bitumen roofing. Façades: painted or unpainted brick, concrete, plaster, render, wood, etc.

## Advantages

- Very effective
- Self-cleaning, no scrubbing required
- Removes all air pollution

## How much product do I need?

Approx. 7.5 m<sup>2</sup>/litre depending on the amount of dirt

## Handy tips?

- Do not apply at high temperatures or in direct sunlight. Do not apply if the ambient or substrate temperature is below +5°C.
- Care should be taken when the product is applied or splashed on certain types of powder coatings. Test it on an inconspicuous area first.
- Also for use on terraces and driveways, ornaments and garden statues, bluestone, garden furniture, orangeries, greenhouses and conservatories.

Material	Colour	Contents	Coverage	Drying time	Coats	Overpaintable
Tensio active substances	Transparent	5 l   11 l	About 7.5 m <sup>2</sup> /l	About 24 hours	1	Yes

# GARDEN CLEAN BIO BASED

Universal and organic cleaning product

INSTRUCTIONS

## What do I need?

## How do I prepare the surface?

- For faster results, remove any built-up dirt by hand.

## How do I use the product?

- Always shake the product vigorously before use.
- For powder-coated substrates, test it on an inconspicuous area first.
- Apply **GARDEN CLEAN BIO BASED** undiluted with a brush or garden sprayer, preferably on a dry or slightly damp substrate at a rate of 5 to 10 m<sup>2</sup>/litre. The amount of product required depends on the amount of dirt on the substrate. Cover if rain is expected within 24 hours.
- Leave **GARDEN CLEAN BIO BASED** to soak in; it is self-cleaning.
- Once the dirt has been removed, the substrate can be treated with paint or a waterproof coating if required.
