

ROOF PAINT REFLECT ALU

UV-resistant roof protection

PRODUCT DATA SHEET

Product description

An elastic, bituminous and reflective paint for protecting bitumen roofs and gutters from UV rays. The built-in UV filter protects the substrate from the negative influences of UV rays and reduces the temperature on and under the roof significantly. This prevents premature ageing of the existing roof covering. It also protects metal structures (pipes, cisterns, etc.) against corrosion (rust).

Application

For use on bitumen roofs, gutters and metal structures.

Advantages

- › Reflects sunlight
- › Extends the life of your existing roof covering
- › Lowers the roof temperature
- › Keeps the space under the roof cooler
- › Prevents rust on metal structures

How much product do I need?

Use 0.125 litres of product per m² per coat.

Handy tips?

- **ROOF PAINT REFLECT ALU** is made from bitumen with aluminium pigments.
- Store in a cool place.
- Avoid applying this coating to bitumen surfaces that are less than 12 months old.
- Do not apply in direct sunlight or if the ambient or substrate temperature is below +3°C or above +27°C.
- Do not apply if there is a risk of rain within 24 hours.
- Clean your tools with white spirit or turpentine.

Material	Colour	Contents	Coverage	Drying time	Coats	Overpaintable
Bitumen with aluminium pigments	Aluminium	0,75 L / 4 L	8 m ² /L	24 hours	2	Yes

ROOF PAINT REFLECT ALU

UV-resistant roof protection

INSTRUCTIONS

What do I need?

How do I prepare the surface?

- First remove all dust and grease from the substrate and make sure it is dry.

How do I use the product?

- Stir **ROOF PAINT REFLECT ALU** very well before and during use. The aluminium pigments must be well mixed for an even appearance and optimum performance.
- Apply 2 coats of **ROOF PAINT REFLECT ALU** evenly with a brush or roller at a rate of 0.125 l/m² per coat, depending on the substrate.
- Only apply the second coat once the first coat is completely dry. The drying time (approx. 24 hours) depends on the temperature and weather conditions.
