

GARDEN PROTECT SUN REFLECT

Protection against excess heat

PRODUCT DATA SHEET

Product description

Reflective paint that prevents excess heat in your greenhouse. After dilution and application, **GARDEN PROTECT SUN REFLECT** provides a white sunscreen that keeps excess heat out by reducing the incidence of sunlight. It is a water-based paint and contains no harmful substances that can contaminate water in ponds or canals.

GARDEN PROTECT SUN REFLECT can be applied to glass and does not harm the substrate. A single application at the start of the warm season is sufficient. It can easily be washed off with soap and water. The paint becomes transparent when rained on and dries white in dry weather.

Application

For use on greenhouses, conservatories, sun lounges, skylights and grow tunnels in glass and plastic.

Advantages

- › Dries quickly
- › Keeps the heat out
- › Usable on glass and plastic
- › Wash off with soap and water

How much product do I need?

Use 1 litre for max. 40 m².

See also the calculator on our website www.aquaplan.com.

/	Transparent when wet White in dry weather	1 l	max. 40 m ² / litre	1 hour	1	No

GARDEN PROTECT SUN REFLECT

Protection against excess heat

INSTRUCTIONS

What do I need?

How do I prepare the surface?

- Make sure the substrate is dry; remove all.

How do I use the product?

- Prepare the required amount of paint by diluting 1 part **GARDEN PROTECT SUN REFLECT** with 2 parts water. ¼ litre of concentrate with ½ litre of water is enough for 6 to 10 m². ½ litre of concentrate with 1 litre of water is enough for 15 to 20 m². Use 1 litre of concentrate with 2 litres of water for 30 to 40 m².
- Stir the mixture well both before use and during application.
- Apply the mixture with a long-haired brush in a thin even layer.
- If desired, apply a second coat for more heat protection.
- Apply it once at the start of the warm season.
- Remove **GARDEN PROTECT SUN REFLECT** with soap and water using a brush.

Usage	Drying time	Cleaning
1 L max. ± 40 m ²	1 hrs	H ₂ O
